Channel number
Mean comb line separation: 208.19 channels => 0.4803 Mhz/ch.
Separation R.M.S.: 0.94 channels = 0.45 MHz
Frequency error introduced by assuming a linear scale centered on channel number 1.01414E+03
Mean comb line width (= AOS resolution): 1.9 channels = 0.913 MHz
Width R.M.S.: 0.05 channels = 0.025 MHz
